

BAB V

KESIMPULAN

5.1 Kesimpulan

Terdapat beberapa kesimpulan yang dapat diambil dari keseluruhan penelitian ini. Untuk menjawab pertanyaan “**Bagaimana peran *Kailash Satyarthi Children’s Foundation* dalam Mengatasi Dampak dari Pertambangan Mica Ilegal Pada Pekerja Anak di India?**” Dengan menggunakan konsep NGO dari David Lewis dan Nazneen Kanji, penelitian ini mengelompokkan adanya implementasi dari peran-peran yang dilakukan oleh KSCF melalui *Bal Mitra Gram*.

Pertama, dalam menjalankan peran sebagai *implementer*, KSCF berfokus pada pemindahan sumber daya untuk menyediakan barang dan jasa terhadap orang yang membutuhkan. Dalam implementasinya, KSCF membangun Bal Panchayat atau *Children Village Council*. Di dalam Bal Panchayat, anak-anak berlatih untuk menyampaikan pandangan mereka mengenai isu yang berdampak pada kehidupan sehari-hari mereka. Dampak yang dirasakan adalah menjadikan anak-anak di desa teredukasi dan memahami hak mereka.

Kedua, dalam menjalankan peran sebagai katalis yang diartikan sebagai agen pembawa perubahan, KSCF menghadirkan Yuva Mandal dan Mahila Mandal. Yuva Mandal berupaya merubah pola pikir anak-anak pekerja tambang mica serta membantu mereka dalam mengubah nasib mereka. Sedangkan Mahila

Mandal mengedukasi kaum perempuan mengenai haknya sebagai manusia agar tidak tertindas dalam pola pikir yang patriarkis.

Ketiga, pengimplementasian peran *partnership* oleh KSCF berkaitan dengan beberapa pihak. Pihak pertama adalah dengan dibentuknya *advisory committee* yang terdiri dari orang-orang yang dijadikan tempat berkonsultasi dalam pengambilan keputusan. Kemudian ada kerjasama dengan pemerintahan lokal di Jharkhand, yang sekaligus menjadi tolak ukur keberhasilan dari peran KSCF karena mendapatkan pengakuan dari pemerintah. Terakhir, dengan didirikannya *Responsible Mica Initiatives*, yang melibatkan banyak pihak di dalamnya.

WAWANCARA

Wawancara penulis dengan Om Prakash, Director of *Bal Mitra Gram*, pada tanggal 10 April 2021.

LAMPIRAN

Lampiran A

Interview Questions with Kailash Satyarthi Children's Foundation

Date : Sunday, April 10th 2021

Time : 13.30 WIB/ 12.00 EST

Duration : +/- 60 minutes

Media : Whatsapp video call

Interviewer : Sophia Yohanes

International Relations Major Student, Parahyangan Catholic
University, Bandung, Indonesia

Interviewee : Om Prakash Pal

Director of Bal Mitra Gram, Chapter Jharkhand, India.

Part 1 : Get to know KSCF

1. Before we get into the question, i wanna clarify a thing because everywhere i search, in BBA website, KSCF website, i could find about who is exactly in charge of Bal Mitra Gram program. Is it KSCF or BBA? Or how is exactly the relations between these two organization? Can you elaborate a bit of the history and context?

2. With the connectivity between BBA & KSCF, which one is the pillar of Bal Mitra Gram, is it KSCF or BBA? How is the mission & vision related to the child labour issue?

3. Speaking of mica mining, why was KSCF choosing mica out of more than 1531 operating mines and 95 minerals in India. Can you tell background story of choosing “mica mining” as one of your organization’s involved area?

4. Is mica that important to India? How crucial is it? Did KSCF Highlight the importance of mica mining to India?

Part 2: Jharkhand, area of intervention

1. Why did you choose these two areas to be involved in this campaign? Why mica mining is important in that two areas?

2. How far is the significant of mica mining in there?

Part 3: India mining and child labour issue

1. If we talk about impact of mining to children, we know it will be revolved around **poverty** that lead **them to violation of right to education** (mining children are unable to access schools or are forced to drop out of schools because of circumstances arising from mining), and it follows with **child labour** phenomena that include their vulnerability to exploitation, illnesses, malnutrition, and so on. How’s your view about this?

2. If we look closer to the impact, its more like a cycle than a linear causal relation. Based on your experience in the field, how is it? What do you think the main components of this vicious cycle of (poverty)?

Part 4: Role of Kailash Satyarthi Children’s Foundation

1. As i’ve seen in your website and media coverages, i wanna point out 4 of your works in the areas of Bihar and Jharkhand, which are Bal Mitra Gram, Bal

Panchayat, Mahila Mandal, Yuva Mandal, Responsible Mica Initiative. What are the specific objectives of these 4 organizations?

2. What are the challenges that you've been facing in the implementation of BMG?

3. How did you overcome that challenges? How about the solution?

4. About Responsible Mica Initiatives, Can you tell how significant the partnership between KSCF and other stakeholder to finally bring this issue to be recognized by the government?
