The 17th (APIEMS 2016)

Asia Pacific Industrial Engineering and Management Systems Conference

Joint with The 3rd East Asia Workshop on Industrial Engineering (EAWIE 2016)
2016 Chinese Institute of Industrial Engineers Annual Conference

Call for Papers

The 17th APIEMS conference, the premier industrial engineering and management systems conference in the Asia Pacific region, will be hosted by the National Taiwan University of Science & Technology (Taiwan Tech). It is the forum for exchange of ideas and discussion among leading experts from academia, industry, and government on the latest developments. It aims to seek opportunities for collaboration among the participants as well as to promote excellence among the fields. Papers will represent the latest academic thinking and successful case examples. The audience will benefit from the knowledge and experience from leading practitioners and academics in this area. The conference seeks research contributions from researchers, educators, modelers, software developers, users and practitioners.

Topics of Interest

- Artificial Intelligence
- Big Data Methodology and Applications
- Cloud Computing and Application
- Data Mining
- Decision Modeling and Theory
- Decision Support System and Expert System
- Demand Chain Management
- E-Business / Information Technology
- Engineering Economy
- Enterprise Resource Planning
- Ergonomics / Human Factors
- Evolutionary Algorithm
- Financial Models and Engineering
- Flexible Manufacturing System
- Fuzzy Logic
- Green Manufacturing / Management
- Health Care System
- Human-Computer Interaction
- Industrial Automation
- Industrial Engineering Education
- Inventory Modeling and Management
- Knowledge and Information Management
- Lean Manufacturing
- Logistics Management
- Management Information System
- Management of Technology and Innovation
- Management Science
- Managing Global Supply Network
- Meta-heuristic
- Operations Research
- Optimization Technique
- Probability and Statistical Modeling
- Product Design and Development
- Product Planning and Marketing
- Production and Operations Management
- Purchasing / Procurement Management
- Quality Engineering and Management
- Queuing Theory and Application
- Reliability and Maintenance
- Safety Engineering
- Scheduling and Sequencing
- Service Science / Management
- Simulation
- Supply Chain Management
- Sustainable Management
- Transportation
- Uncertainty Theory
- Communication Support
- Tourism Management
- Other Related Topics in IE/MS

Submission

Authors should submit the abstract and later the full paper in MS WORD document, maximum of 8 pages including figures and diagrams (Double Columns, font size 10) by accessing <http://apiems2016.conf.tw>. The first page of the paper must contain the title, names and affiliations of the authors, email address, and maximum five keywords/phrases, and identify the corresponding author by giving full contact information including the email address. The APIEMS conference proceedings and the IEMS journal are included in the SCOPUS and the Australian Index System. For further information, please feel free to contact the secretariat at apiems2016@gmail.com.
