

GLOSSARY :

AJI RAKSA	Corner pillar of the surrounding wall of a Balinese house located on the <i>kaja-kelod</i> direction.
ALING-ALING	Screening wall placed after the entrance of a Balinese house to stop evil spirit entering the house.
ANGKUL-ANGKUL	The Balinese house entrance gate. Another name is <i>Kori</i> .
ATMA	Literary meaning : soul. In a Balinese house, it is the family shrine.
BALE	Open structure pavilion. <i>Bale Dangin</i> , pavilion on the <i>kangin</i> ('east') side of a Balinese house lot; this is used for rite passage of family life. <i>Bale Dauh</i> , pavilion on the <i>kauh</i> ('west') side of a Balinese house lot. <i>Bale Banjar</i> , meeting hall of a Banjar.
BANGUNAN PAWONGAN	Residential building.
BANJAR	A family neighbourhood organization that has several closely related functions: religious, governmental, social and educational. These functions have evolved into a complex web of interlocking responsibilities, obligations, and benefits so that a considerable percentage of the time of an average member is occupied with <i>banjar</i> activities.
BEDAWANG NALA	Turtle. In Balinese architecture turtle symbolises foundation to stabilize the world.
BHUR LOKA	Lower world for demons and animals (see also <i>Tri Hita Karana</i>).
BHUWANA AGUNG	Macrocosm; in architecture it could mean a building, a house or a universe.
BHUWANA ALIT	Microcosm; in architecture it could mean human body.
BWAH LOKA	Intermediate world for human being (see also <i>Tri Hita Karana</i>)

CENGKANG	A unit of measurement taken as the distance between the tip of the stretched fore finger and the thumb. This unit measurement can be used to in place of the <i>tampak</i> (see <i>tampak</i>).
DEPA	A unit of measurement taken as the distance between the tips of the middle fingers when the arms are stretched out as far as they will reach. Sometimes this unit measurement is also called <i>Depa Alit</i> . This is to differentiate with <i>Depa Agung</i> which is one depa plus one <i>hasta</i> (see <i>hasta</i>); this measurement is used for noble people.
GEGULAK	A ceremony to take basic measurement units, i.e., <i>depa</i> , <i>hasta</i> , <i>musti</i> (see <i>depa</i> , <i>hasta</i> , <i>musti</i>).
GELEBEG	A big rice granary (see also <i>Jineng</i>).
GRIYA	A house belongs to the priest (Brahmins) (see also <i>Umah</i>).
HASTA	Literally means measurement. As a measurement unit it covers the distance between the elbow to the tip of the outstretched middle finger.
HASTA KOSALA KOSALI	Traditional architectural <i>lontars</i> that contains rules, measurements, ceremonials activities related to Balinese building designs. They were written in old Javanese language and normally practised by <i>undagi</i> .
JERO	A house belongs to the ruling class (Ksatriya) (see also <i>Umah</i>).
JINENG	A rice granary; the part that is used to store rice is the attic. There are many names for rice granary in Bali such as : <i>Lumbung</i> is a fine word for rice granary; <i>Klumpu</i> is a small granary, normally it has walls on four sides to form a room which together with the attic is used to store rice; <i>Gelebeg</i> is a big rice granary, it generally has six columns.
KAJA	Direction towards the mountain.
KALA RAKSA	Corner pillar of the surrounding wall of a Balinese house located on the <i>kaja-kauh</i> direction.

KANGIN	Direction towards the sunrise.
KAUH	Direction towards the sunset.
KELOD	Direction towards the sea.
KLUMPU	A small rice granary (see also <i>Jineng</i>).
KORI	An entrance gate of a Balinese house. Another name is <i>Angkul-angkul</i> .
LONTAR(S)	Palmyra-leaf manuscripts; in Bali they are usually written in old Javanese language.
LUMBUNG	A fine word for rice granary (see also <i>Jineng</i>).
MADYA	Middle, moderate.
MLASPAS	The purification of completed buildings.
MERU	The pagoda-like roof of shrines in Balinese temples.
MRAJAN	See <i>Pamerajan</i> .
MUSTI	A unit of measurement taken as the width of the fist with thumb outstretched.
NASARIN	The ritual ceremony of laying the first brick in erecting a Balinese house.
NATAH	The central open inner-court of a Balinese house.
NAWA SANGA	Ninefold division of space. It was suggested to have a relationship with the arrangement of buildings in the house yard.
NISKALA	Unseen, unobservable world.
NISTA	Lower, profane.
ODALAN	Festival days.
PAMERAJAN	House yard temple; the term is used to indicate those belong to the noble family. It is also called <i>mrajan</i> .
PANGURIP	' <i>Urip</i> ' means life. <i>Pangurip</i> is a unit of measurement added to a total measurement to make 'trigger' life.

PANUNGGUN KARANG	' <i>Tunggu</i> ' means to guard and ' <i>karang</i> ' means house yard. Panunggun Karang is stone shrine dedicated to the spirit that guards Balinese house yard.
PAON	See Pawon.
PAWON	Traditional kitchen in a Balinese house. ' <i>Awu</i> ' means ash and the word pawon comes from ' <i>pe-awu-an</i> '. Sometimes it is called <i>Paon</i> .
PEDANDA	A Balinese priest of Brahmins caste.
PEMANGKU	A Balinese priest of non-Brahmin caste. Initially he works as a caretaker in a Balinese temple.
PURI	A house belongs to the king or prince (see also <i>Umah</i>).
RUDRA RAKSA	Corner pillar of the surrounding wall of a Balinese house located on the <i>kelod-kauh</i> direction.
RWA BHINEDA	The reconciliation of two opposing poles.
SANGGAH SURYA	' <i>Surya</i> ' means sun. A stone shrine dedicated to the god of sun.
SANGGAH	House yard temple; the term is used to indicate those belong to the noble ordinary people. It is also called <i>pamerajan</i> .
SARIRA	Literal meaning : physical body. In a Balinese house it is all other buildings except the family shrines.
SEKALA	Concrete, observable world.
SRI RAKSA	Corner pillar of the surrounding wall of a Balinese house located on the <i>kaja-kangin</i> direction.
SWAH LOKA	The upper world for gods (see also <i>Tri Hita Karana</i>)
SUBAK	Agricultural organization that controls the distribution of irrigation water in Bali.
TAKSU	Stone shrine dedicated for good prospects and career of the house occupants in a Balinese house.

TAMPAK	The length of the house owner's foot. <i>Tampak ngandang</i> is the width of the house owner's foot. This unit of measurement is used to measure distances between building in a Balinese house.
TRI HITA KARANA	Literally means 'three causes of goodness'. In Balinese belief, it is widely accepted that the world is composed of three parts : the upper world for gods (<i>swah loka</i>), the intermediate world for human beings (<i>bwah loka</i>) and the lower world for demons and animals (<i>bhur loka</i>). This belief matches the concept of architectural space.
TRIKAYA	Literal meaning : power or ability. In a Balinese house the term refers to the house occupants.
UMAH	A Balinese house. There are many names for Balinese house such as : <i>Griya</i> (those belong to the Brahmins); <i>Puri</i> (those belong to the king or prince); and <i>Jero</i> (those belong to the Ksatrias that do not rule). The design principles for Balinese house is the same, except that houses for the higher castes have more buildings and usually applied a lot of decorative elements.
UMAH KANTORAN	' <i>Kantor</i> ' means office. This term refers to office style building in Bali which started to be build in the 1950's.
UNDAGI	A traditional Balinese architect. Usually a priest.
UTAMA	Highest, sacred. <i>Utamaning utama</i> , the most sacred; <i>Utamaning madya</i> , the less sacred; <i>Utamaning nista</i> , the least sacred.

APPENDIX A

**QUESTIONNAIRE : The Relationship Between Balinese Cultural Values
and Balinese Housing Design**

I. BELIEFS, ATTITUDES, AND OPINION

Now, some questions concerning attitudes and beliefs about Balinese house design. Please answers according to your own opinion.

1. A traditional house in Bali should be designed and constructed according to the rules as prescribed in the religious manuscript (e.g. Hasta Kosala, Hasta Kosali, Hasta Bumi, etc.)

- [] Strongly agree
[] Agree
[] Undecided
[] Disagree
[] Strongly disagree

If your answer is 'strongly agree' or 'agree' :
Does it mean that a house belong to a Hindu-Balinese should be designed according to those religious manuscript ?

- [] Yes [] No

If your answer is 'disagree' or 'strongly disagree':
Does it mean that a house belong to a Hindu-Balinese is not necessarily designed according to those religious manuscript ?

- [] Yes [] No

2. In which direction do you think the following house compounds in a Balinese traditional house are most preferably located ?

	Kaja	Kelod	Ka-n gin	Kauh	Kaja Ka - ngin	Kaja Kauh	Kelod Ka- n gin	Kelod Kauh
Entrance
Kitchen
Sleeping (parents)
Sleeping (girls)
Sleeping (boys)
Central- pavilion
Bath / W.C.

3. (a) Which three of the following building compounds/parts in a Balinese traditional house you believe to be sacred (tick three codes only in column A).

(b) Which of these three is the most sacred ? (tick one code only in column B)

(c) Which three of the following building compounds/parts in a Balinese traditional house you believe to be profane (tick three codes only in column C).

(d) Which of these three is the most profane ? (tick one code only in column D)

	Most Sacred		Most Profane	
	A three sacred	B one most	C three profane	D one most
<u>Kori</u> (entrance gate)
<u>Paon</u> (kitchen)
<u>Lumbung</u> (rice-granary)
<u>Bale sakepat</u> (open pavilion with four posts)
<u>Bale dangin</u> (central pavilion)
<u>Bale Dauh</u> (side pavilion)
<u>Uma meten</u> (sleeping quarter)
<u>Sanggah/pamerajan</u> (house shrine)
Animal pen
Pit
<u>Natah</u> (central courtyard)
Other compounds/part specify :

4. In your opinion, would a Balinese generally identify his or her house in three divisions as 'head' (utama), 'body' (madya) and 'leg' (nista) ?

[] Yes [] No [] Don't know

If your answer is YES,

Do you think this division is important to differentiate the sacred parts from the profane ones ?

[] Yes [] No [] Maybe

5. Do you believe in this sacred/profane orientation in Balinese Traditional House ?

- [] Strongly believe
 - [] Believe
 - [] Don't believe
 - [] Can't answer

6. The entrance gate of a Hindu-Bali family must take the form of a kori (Balinese style entrance gate) in order to :

Please tick two boxes :

- [] promote its aesthetic appeal
- [] maintain Balinese identity
- [] be accepted by Hindu god
- [] satisfy the government's building regulation
- [] not necessary for a Balinese house
- [] other - please specify :

7. Where, to your knowledge, in Balinese traditional house, are the following activities carried out :

Activities	Bale Dangin	Uma Meten	Paon	Lum-bung	Natah
(a) The ceremony of a childbirth
(b) Tooth-filing
(c) Marriage ceremony
(d) Preparation of temple offerings
(e) Cooking traditional food
(f) Keeping family heir-loom
(g) Praying

8. Now, this questions will concern with the sanggah/pamerajan (house shrine). I would like to know your attitude toward the following statements :

	Strongly agree	Agree	Un-decided	Dis-agree	Strongly disagree
(a) In many cases <u>Sanggah</u> may be located in any direction
(b) A hindu-Balinese house must have a sanggah
(c) <u>Sanggah</u> may be located in the roof levels, as long as the direction is in <u>kaja-kangin</u>
(d) The mass production of <u>sanggah</u> is positive because people can easily get them in the shops.

9. What do you think will happen if a Hindu-Bali family's house does not have a sanggah/pamerajan (house shrine) ?
- [] The family is not happy
 [] A member of the family will be ill
 [] The house will be entered by a leyak (evil spirit)
 [] Nothing will happen
 [] Other - please specify : probably

10. Do you know of any misfortune(s) reported happen because their house do not have sanggah/pamerajan (house shrine) ?
- [] Yes [] No

If YES,
 Do you think this misfortune(s) is connected to the family does not have the sanggah/pamerajan ?

[] Yes [] No [] Maybe

11. A traditional house in Bali is built in a certain sequence.
 Do you know about that ?

[] Yes [] No

If YES,
 Which do you think is the proper sequence ?

- [] lumbung - paon - uma meten - bale dangin - sanggah
 [] lumbung - paon - sanggah - uma meten - bale dangin
 [] sanggah - uma meten - bale dangin - lumbung - paon
 [] sanggah - bale dangin - uma meten - paon - lumbung
 [] not one of the above sequence is right

II. INTENTION

12. Now, some questions about what you want or you do not want to do with your house in the future

	Defi-nite-ly	Pro-ba-bly	Pro-ba-bly NOT	Cer-tain-ly NOT	Can-not ans-wer
a. Will you invite a priest to do some ritual ceremonies for your new house before you occupying it ?
b. If I build a new house, it will be designed by					
(1) <u>undagi/architect priest</u>
(2) engineers (architect or civil engineer)
(3) a contractor
(4) myself

13. If I had a fund of Rp. 500,000.- (£ 140) for making an adaptation to my house; I would :

- [] build a better sanggah/pamerajan (house shrine)
- [] buy furniture (specify room :)
- [] build a kori (gate entrance) with Baliness style
- [] I cannot make adaptation/alteration of the building because the house is not mine.
- [] other

14. If I had the opportunity to get a loan of Rp. 25,000,000. - (£ 7000) for a new house; I would :

- [] build a Balinese traditional house
- [] build a low-cost modern house
- [] buy a modern house from real-estate
- [] buy a Perumnas/BTN housing
- [] other ; please specify

15. I live in rumah asli / Perumnas housing. Taken as a whole :

- [] I am satisfied with my previous form of my house type and I do not want to make any adaptations.
- [] I am satisfied with my previous form of my house type but I want to make some adaptations.
- [] I am dissatisfied with my previous form of my house type but I will not make any adaptations.
- [] I am dissatisfied with my previous form of my house type therefore I will make some adaptations.
- [] I do not need to make adaptation to my house because I will sell it, buy a new one, and move to the new house.

V. ADAPTATIONS TO THIS BUILDING

Now some questions about house-adaptation that you have done:

17. (a) How long have you been occupying this house ?

- [] 1 year [] 2-3 years [] more than 3 years

(b) Have you made adaptations to your house ?

- [] Yes [] No

If YES,

Please answer the following questions :

18. The adaptations I have made to my house since I have occupied it (please indicate with A, B, C, D, E, F, G, or H):

Actions :

A = Painting/Decorating	B = Furnishing
C = Change function/move *)	D = Split/Divided*)
E = Extention *)	F = Demolished partly
G = Demolished entirely	H = New Construction

*) When change function, split, or extended, please explain what function coming in/out.

Room/House compounds	Date of change	Actions	Reasons for adaptations
----------------------	----------------	---------	-------------------------

For Perumnas/Low-cost Modern Housing :

Guest-room
Dining-room
Kitchen
Master-bedroom
Bedroom
Bath/W.C
<u>Sanggah/Pamerajan</u>
other :			
Please specify

For Traditional House :

<u>Kori/entrance gate</u>
<u>Uma Meten</u>
<u>Paon</u>
<u>Lumbung</u>
<u>Bale Sakepat</u>
<u>Bale Sakenem</u>
<u>Bale Dauh</u>
<u>Bale Dangin</u>
<u>Natar</u>
<u>Sanggah/Pamerajan</u>
Other :			
Please specify

19. Is there any adapted part of the house that is used for religious or ritual purposes ?

[] Yes [] No

If YES, please specify :

Adaptations/Alterations	Religious/Ritual Use	How Frequent
.....
.....
.....

20. Have you experienced any difficulty when doing adaptations to your house :

[] Yes [] No

If YES, these are due to :

- [] insufficient finance
- [] construction problems
- [] municipal or town planning regulations
- [] other
please specify :

21. I have made some adaptations to my house. Taken as a whole :

- [] I am satisfied with my house now that I have made some adaptations.
- [] I am still dissatisfied with my house although I have made some adaptations.

Reasons for dissatisfaction is/are :

- [] more adaptations need to be made
- [] adaptations are not appropriate with their purposes
- [] the adaptations are alright, but the location of the house is not
- [] the adaptations are alright, but I need a bigger lot
- [] constructions for the adaptations are difficult
- [] constructions for the adaptations cost too much
- [] other, please specify :

VI. ACTIVITIES AND USE OF THE BUILDING

Now, some questions about activities and use of your house :

22. Do you still have a rumah asli (traditional house) where you sometimes go back to ?

[] Yes [] No

If YES,

Please answer the following questions :

23. How frequent do you visit your rumah asli (traditional house') in the village in a year ?

- [] once in a year
- [] two - four times in a year
- [] more than five times in a year
- [] I have not visited my rumah asli in the past two years

24. Do you do religious activities when you visit your rumah asli ?

[] Yes, always [] Only sometimes [] No

25. Do you observe the sacred functions of your house ?

[] Yes [] No

If YES,

Please tick whether you do or do not and indicate other religious functions that you know :

a. Uma Meten (sleeping for parents)

To keep family heir-loom

other function :

Yes	No
...	...
...	...
...	...

b. Paon (kitchen)

To burn impurities

other function :

c. Lumbung (rice granary)

To make traditional food

other function :

26. What sort of religious activities if any, who, and where do you or your family member usually do it ?

Religious activities	Who perform	Where	How Frequent
.....
.....
.....
.....

Responden No. :
Kwesisioner : HUBUNGAN ANTARA NILAI-NILAI BUDAYA DENGAN RANCANG
BANGUN PERUMAHAN DI BALI.

PETUNJUK :

A. Berikut ini akan disajikan beberapa pernyataan mengenai kepercayaan yang menyangkut masalah rumah/perumahan di Bali. Anda diharapkan menyatakan sikap Anda terhadap pernyataan-pernyataan tersebut dengan cara memilih :

SS, bila Anda SANGAT SETUJU dengan pernyataan tersebut.

S, bila Anda SETUJU dengan pernyataan tersebut.

E, bila Anda TIDAK DAPAT MENENTUKAN PENDAPAT mengenai pernyataan tersebut.

TS, bila Anda TIDAK SETUJU dengan pernyataan tersebut.

STS, bila Anda SANGAT TIDAK SETUJU dengan pernyataan tersebut.

Berilah tanda silang (X) hanya pada satu kotak di bawah pilihan anda untuk setiap nomor pernyataan.

B. Lingkarilah nomor pertanyaan/pernyataan yang Anda anggap tidak jelas atau kurang dimengerti.

Karena jawaban diharapkan sesuai dengan pendapat Anda sendiri, maka tidak ada jawaban yang dianggap salah dan Anda tidak perlu mencantumkan nama anda.

[SS] [S] [E] [TS] [STS]

1. Kehidupan bertetangga di lingkungan perumahan ini harmonis.

2. Pawon boleh dibangun bersebelahan dengan bale daja/dangin.

3. Rumah adat Bali dapat mengikat dan mempersatukan hubungan keluarga.

4. Rumah orang Bali beragama Hindu harus dirancang menurut aturan Kasta Kosala-Kosali.

5. Angkul-angkul bentuknya indah untuk menyenangkan para dewata.

6. Waktu mendirikan rumah adat Bali, sanggah tidak harus lebih dahulu dibangun.
7. Jika saya mendirikan rumah adat Bali, upacara-upacara tidak saya perlukan lagi.
8. Waktu mendirikan rumah adat urut-urutan pembangunan gedong dan bale-bale tidak boleh sembarang.
9. Karena jineng/glebeg sudah jarang dipergunakan lagi, maka sebaiknya dibongkar.
10. Pada waktu menstruasi (datang bulan) seorang wanita tidak diperkenankan memasuki sanggah.
11. Jika rumah adat tidak memiliki sanggah maka ada penghuninya akan menderita sakit.
12. Hasta Kosala-Kosali sebagai pedoman untuk membangun rumah sudah ketinggalan jaman.
13. Upacara-upacara keluarga yang bersifat keagamaan hanya dapat dilakukan pada rumah adat Bali.
14. Memilih hari baik untuk membangun rumah adalah perbuatan bodoh.
15. Untuk memenuhi kebutuhan masa kini, rumah adat perlu diubah dan disesuaikan dengan jaman.
16. Perubahan/penyesuaian rumah adat merupakan pelanggaran terhadap tradisi yang sudah ada.

<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

17. Dalam perubahan/penyesuaian rumah adat Bali, Bale dangin mutlak harus dipertahankan.
18. Aling-aling merupakan bagian rumah yang boleh dibongkar.
19. Bale daja/Uma meten tidak perlu dipergunakan sebagai tempat menyimpan harta pusaka keluarga.
20. Jika paon diletakkan pada arah kaja, pemiliknya akan merasa tidak cocok.
21. Jika tanah sempit, sanggah boleh diletakkan di atap rumah.
22. Penyesuaian/perubahan rumah adat akan menyebabkan bentuknya lebih harmonis.
23. Jika saya melakukan perubahan pada rumah adat, daripada membongkar pawon lebih baik membongkar bale delod.
24. Jika bale dangin dibongkar, maka rumah adat tidak lagi dapat dipergunakan untuk upacara-upacara kekeluargaan yang bersifat keagamaan.
25. Tata letak ruangan (ruang tidur, ruang tamu, dapur, dsb.) pada rumah Perumnas/BTN kurang cocok untuk orang Bali beragama Hindu.
26. Palinggih sanggah yang terbuat dari beton bentuknya jelek.
27. Orang-orang Bali beragama Hindu lebih suka rumahnya dirancang/dibangun oleh Undagi.
